Copy the following scripts to any directory in your path to use them:

cp /Users/ryan/.gem/sandboxes/omnifocus/bin/omnifocus /Users/ryan/.gem/sandboxes
/omnifocus/bin/omnifocus_new in your $PATH
```

# Omnifocus

The screenshot shows the Omnifocus application window titled "Projects: hoe". The interface includes a top toolbar with icons for various task states (Inbox, Projects, Contexts, Due, Do, Review, Flagged, Completed, Context, Estimate, Long Tasks, Quick Tasks), a search bar, and a sync button. Below the toolbar are several filter menus: Project Filter (Active), Grouping (Ungrouped), Sorting (Unsorted), Availability Filter (Remaining), Status Filter (Any Status), and Estimated Time Filter (Any Duration). A sidebar on the left lists various projects, with "hoe" selected. The main pane displays a list of tasks for the "hoe" project, including their names, contexts, start and due dates, and estimated durations.

Name	Context	Start	Due	Estimated Time
<input type="checkbox"/> add gem compiler hooks for hoe w/ aaron	Person/Aaron			1h
<input type="checkbox"/> possibly extend hoe to run create_package(group,package)/autoconfig	Verb/Coding/3 New Feature			1h
<input type="checkbox"/> edit jacob harris' presentations and put up as doco	Verb/Writing			1h
<input type="checkbox"/> steal parts of this doco for hoe	Verb/Writing			1h
<input type="checkbox"/> steal parts of this for hoe doco	Verb/Writing			1h
<input checked="" type="checkbox"/> hoe-seattlerb-should-check-the-History-for-version	Verb/Coding/3 New Feature	Start	Due	20m
<input type="checkbox"/> RF#27701: Hoe: It should not advertise 'ext' in require_paths gemspec field	Verb/Coding/2 Bug	2011-08-01 13:00		10m
<input type="checkbox"/> RF#27737: [Hoe] publish_docs task should support hosts other than rubyforge.org.	Verb/Coding/3 New Feature			10m
<input type="checkbox"/> RF#28796: hoe calls 'sudo' when installing required dependencies	Verb/Coding/2 Bug	2011-08-02 13:00		30m
<input type="checkbox"/> RF#28812: [PATCH] Use require instead of Kernel#load	Verb/Coding/2 Bug	2011-08-03 13:00		30m

The screenshot shows the GitHub Issues page for the `rubygems/rubygems` repository. The browser address bar shows the URL `https://github.com/rubygems/rubygems/issues?sort=created&direction=RSS`. The page title is "Issues - rubygems/rubygems - GitHub".

On the left sidebar, there are filters for "Everyone's Issues" (64), "Assigned to you" (30), and "Mentioning you" (7). Below these are "LABELS" with a list of categories and their counts: "category - API" (7), "category - command" (11), "category - #gem o..." (2), "category - install" (19), "category - other" (10), "category - platfo..." (2), "status - accepted" (20), "status - feedback" (13), "status - rejected" (2), "type - bug" (24), "type - feature" (26), and "category - c exte..." (0). A "Manage Labels" button and a "New label name" input field are also visible.

The main content area shows a list of 64 open issues and 79 closed issues. The issues are sorted by "Submitted" and are displayed in a list view. The issues listed are:

- #143 sources support not working in 1.8.5+ (by qrush about 12 hours ago)
- #142 platform.rb regex issues (by djberg96 about 19 hours ago)
- #141 a small typo in user\_interaction.rb (by unak 2 days ago)
- #139 Broken UTF-8 handling when environment locales are not set (by siefca 2 days ago, 1 comment)
- #138 Gem fails when gemspec contains Regexp (by mthiede 4 days ago)
- #136 gem uninstall -f should remove items outside of GEM\_HOME (by telemachus July 23, 2011)
- #135 Gem is installed incomplete when RDoc fails. (by voxik July 20, 2011)
- #134 gem check -a => NoMethodError (by mattdipasquale July 17, 2011)
- #133 uninstall dependencies recursively (category - command, status - rejected, type - feature) (by mattdipasquale July 16, 2011, 3 comments)
- #131 Installer outputs BOM from History.txt (category - other, status - accepted, type - bug) (by AloisMahdal July 09, 2011)
- #130 build command "--prebuilt-extension" option (by HotFusionMan July 06, 2011, Code Attached, 3 comments)
- #129 gem install --pre prefers old gems (by ddebernardy July 06, 2011)
- #128 versions >= 1.8 break jeweler's rake install (status - feedback) (by azolotov June 30, 2011, 2 comments)
- #126 specify dependencies per ruby version (category - install, type - feature) (by tenderlove June 29, 2011)
